

## **CAPSULE SUMMARY**

**BA-1076**

**398 Eudowood Lane**

**East Towson, Baltimore County**

**Circa 1890**

**Private**

The warehouse at 398 Eudowood Lane was constructed circa 1890 in the East Towson neighborhood of Baltimore County. The history of East Towson dates from the purchase of one-and-a-quarter acres of land by Daniel Harris in September 1853. This is believed to be the first documented African-American landholding in Towson, and is among the oldest such ethnic enclave in Baltimore County. Further, manumitted slaves and/or descendents of former slaves, many of who were owned by Charles Ridgely, populated the neighborhood. Hampered by the low economic status of the residents, development in the 19<sup>th</sup> century was slow, increasing after the turn of the 20<sup>th</sup> century. The setting of the property, building styles, and construction materials were guided by the limited economic status of the residents and their desire to establish a neighborhood of their own without the assistance of white architects, builders, and craftsmen. By 1927, the community was ninety-five percent improved with single-family dwellings, social buildings, a school, and religious structures.

Fronting west on a large level gravel lot, this wood-frame warehouse is raised up on a solid coursed stone foundation, and is two stories high and seven bays wide. The basement story uses two 1x1 casement windows each with a four-light transom and two-light sidelights. Access to the basement is obtained through the one small single-leaf flush wood door. Five bays wide, on the first story is a shed roof center section. This section is comprised of four single windows and one paired, all 6/6 double-hung wood sash windows with square-edged wood surrounds and sills. Non-historic wood steps lead up to the single-leaf flush 1-light metal door. The stairs leading to the second floor are enclosed and lighted with two fixed 1-light wood windows. The second story windows include one 6/6 double-hung wood sash window, one 1-light partially boarded window, four 6/6 double-hung vinyl sash windows (above the shed roof section), and one 1-light boarded window. Rising above the Jerkinhead roof is one exterior-end brick chimney with a corbeled cap. The building is reclad with asphalt shingles, and the roof is sheathed with asphalt shingles. Many additions, constructed circa 1940, have been made to the rear elevation.

Evaluation for:

☐ National Register

☐ Maryland Register

☒ not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance projects, complete evaluation on a DOE Form – see manual.)

The warehouse at 398 Eudowood Lane was constructed circa 1890 in the East Towson neighborhood of Baltimore County. East Towson is associated with events that have made a significant contribution to the broad patterns of our history, specifically the pre-Civil War development of an African-American neighborhood in a predominately white community. The history of this property dates from the purchase of one-and-a-quarter acres of land by Daniel Harris in September 1853. This is believed to be the first documented African-American landholding in Towson, and is among the oldest such ethnic enclave in Baltimore County. Further, manumitted slaves and/or descendents of former slaves, many of who were owned by Charles Ridgely, populated the neighborhood. Hampered by the low economic status of the residents, development in the 19<sup>th</sup> century was slow, increasing after the turn of the 20<sup>th</sup> century. The setting of the property, building styles, and construction materials were guided by the limited economic status of the residents and their desire to establish a neighborhood of their own without the assistance of white architects, builders, and craftsmen. By 1927, the community was ninety-five percent improved with single-family dwellings, social buildings, a school, and religious structures. Many of the current homeowners and tenants living in the neighborhood are descendents of the first African-American residents.

East Towson as a whole is representative of an important phase of architectural development in Baltimore County, illustrating the dilution of popular architectural styles to more efficiently meet the needs of the neighborhood, and the builders' untrained abilities to execute the fashionable ornamentation. Thus, East Towson provided lower cost housing in a more suburban neighborhood, rather than the urban setting their economic status typically perpetuated.
